

# Portable Generators

create Carbon Monoxide (CO)  
levels that may cause death.

You can't see or smell CO.

- **NEVER** use a generator indoors or in partially enclosed spaces like garages
- **OPENING** doors and windows or using fans **WILL NOT** prevent CO poisoning
- **PUT** generators outdoors, away from doors, windows, house vents and air conditioning units that could pull the CO indoors
- **USE** battery-operated CO alarms in your home

**Get in fresh air right away  
if you get a headache with dizziness,  
weakness or vomiting & call the  
Poison Control Center  
at 1-800-222-1222.**
